SECTION E - NARRATIVE				
<p>During a birthday party at Fredbear's Family Diner that was held on December 12, 1982, Charlotte Emily was invited. The birthday party started at 6:30PM and lasted until 9:00PM, which was the closing hours of the establishment. During the entire duration of the party, no attendees recalled seeing Emily participating in the party's event. However, one attendee said they saw Emily standing outside in the rain at around 7:40PM. When asked why they didn't alert any staff members, the attendee said they were "busy having fun". The morning after the incident, multiple witnesses saw a body of a robotic puppet lying outside of the establishment's dumpsters with streaks of blood near it. When checked, no body was found.</p>
